SUMMARY

As a Computer Science graduate specializing in Software Engineering and UI/UX design, I aim to contribute significantly to any organization. My goal is to excel by combining technical skills with user-centered design, continuously improving as a professional. I strive to be a distinguished leader, fostering innovation and creating exceptional digital experiences.

WORK EXPERIENCE

UI/UX Designer | Frontend Developer, Nekfa Australia PVT LTD, Colombo 02 Nov 2023 - Present

- Assist in the development of websites for clients using HTML, CSS, JavaScript, Bootstrap, and WordPress.
- Moderate and develop dynamic digital content for interactive screens deployed at various locations.
- Collaborate with stakeholders to gather requirements and implement solutions that meet client needs effectively.
- Ensure websites are responsive and optimized for various devices for optimal performance.
- Developed and successfully launched the 'Inquiry Management System' to make inquiries to Katunayake Seeduwa Urban Council's users/customers.
- Developed the UK project Cerınca site.
- To view the official websites of the Negombo Municipal Council (Sri Lanka), the Kalutara Municipal Council (Sri Lanka) and the Attanagalla Pradeshiya Sabha (Sri Lanka).

Information Security Intern, Hemas Holdings PLC, Colombo 02

Apr 2023 - Nov 2023

- Assisted in the monitoring of Security Information and Event Management (SIEM) scenarios and notified them relevant SBUs'/parties and recommended actions to address potential security incidents.
- Proficiently utilized ManageEngine within a ServiceDesk Plus framework to manage ticket requests and inquiries. Ensured prompt issue resolution and provided exemptional support for end-users.
- Conducted a comprehensive evaluation and comparison of various Web Application Firewalls (WAF) along with their distributor and suppliers.
- Applied design skills to create infographics and posters for company related events and innovative security awareness campaigns.
- Developed a Python script to convert .txt files to .log format, enhancing data processing and automation capabilities.

Oct 2020 - Nov 2020

Data Entry Analyst, Horizon College, Malabe, Colombo

- Entered employee salary data and student details to the SAP system.
- Helped SAP team in finalizing data documents.
